ANXIETY AND DEPRESSION (175 p.) **Save \$17!** Sale Price **Now \$60.95**

Detection, diagnosis and treatment of major depression; symptoms of a panic attack; causes and treatment; overview of mood disorders; symptoms of depression and mania; types of depressive illness; depression co-occurring with other psychiatric and medical disorders; depression associated with medications; depression in women, adolescents and elderly; special situations: suicidal patient, geriatric depression, seasonal depression; costs, benefits and harms of treatment; acute phase treatment with medication and psychotherapy.

NURSING AN HISPANIC PATIENT by Vijay Fadia (329 p.) **Save \$21!** Reg. Price \$79.95 **Now \$58.95**

It would be a rare nurse who does not come in contact with an Hispanic patient. Providing quality patient care can be challenging enough without a cultural or language barrier. But if you do not speak Spanish and do not understand Hispanic culture, how are you supposed to do your job? The concept of health varies from culture to culture. Religion, family, food, speech, manners, visits—they all define how people look at health and illness. This course provides a unique cultural perspective in your interaction with an Hispanic patient.

RN-to-BSN COMPLETION

The Institute of Medicine has recommended that 80 per cent of the nursing workforce hold a bachelor's degree or higher in nursing by 2020. Many hospitals are requiring their RNs to have a minimum of BSN degree. Studies have confirmed that nurses with a higher degree commit far fewer medical errors. Needless to say, a nurse with a BSN improves her employability and earnings. The program is offered in three formats: Online, Classroom (Torrance) and Hybrid. Average length of time 4-5 semesters (16-20 months) An applicant can transfer up to 72 credit hours. Financial aid available to those who qualify. **Call Admissions (800) 253-0088** HomesteadSchools.net

MANAGING DIFFICULT PATIENTS

30 Contact Hours (199 p.) # 1610

Reg. Price \$79.95

Save \$28! **\$51.95**

This course describes in first-person accounts true-to-life situations you encounter daily in your job. The characters in each story are instantly recognizable: patients who are uncooperative, lash out in anger or fear, withdraw into depression, or behave manipulative. You will learn how to win them over with ingenious techniques suggested by your colleagues.

You'll find • Clinically Challenging Patients • Noncommunicative Patients • Emotionally Demanding Patients • Patients with Problem Families • Patients with an Altered Self-Image

Case Studies in

EMERGENCY NURSING # 1135

by Barbara Mlynczak-Callahan, RN, MS, CCRN
30 Contact Hours (249 p.)

Reg. Price \$79.95

Now **\$62.95**

Save
\$17

Learning Objectives

• Apply critical thinking and diagnostic reasoning to emergency situations, some seemingly minor complaints, others obviously life threatening. You'll study 32 cases representing high-risk situations that may be encountered in any ED. • You'll be able to "think" through major considerations for each patient type and determine a possible course of action at the triage. • You'll be able to identify symptoms and symbols and learn medical management of the patient in the ED environment. • You'll establish nursing diagnoses and look for desired patient outcome. • You'll determine appropriate nursing intervention and assist the physician in emergency treatment.

MEDICATION ERRORS AND HOW TO AVOID THEM # 1920
