This indispensable book provides therapists and counselors with crucial knowledge about psychotropic medications: when and how to make medication referrals, ways to help patients handle questions and problems that arise, and the ins and outs of combining medication and psychotherapy effectively. The book explains how medications work in the brain and discusses their impact on emotions, behavior, and relationships. Particular attention is given to strategies for collaborating successfully with prescribers.

TREATING ALCOHOL AND DRUG PROBLEMS

TREATING BIPOLAR DISORDER

A Clinician's Guide to Interpersonal and Social Rhythm Therapy
by Ellen Frank, PhD

Reg. Price \$70.95
Now **\$73.95**

10 Contact Hours (212 p.) # 7250 NBCC approved

This innovative manual presents a powerful approach for helping people manage bipolar illness and protect against the recurrence of manic or depressive episodes. Interpersonal and social rhythm therapy focuses on stabilizing moods by improving medication adherence, building coping skills and relationship satisfaction, and shoring up the regularity of daily rhythms or routines. Each phase of this flexible, evidence-based treatment is vividly detailed, from screening, assessment, and case conceptualization through acute therapy, maintenance treatment, and periodic booster sessions.

SELF-DISCLOSURE IN PSYCHOTHERAPY

by Barry A. Farber, PhD.

Save \$14!

Reg. Price \$89.95
Now **\$75.95**

7 Contact Hours (242 p.) # 7145 NBCC approved

Self-disclosure is a very hot, current topic. Rich with detailed case material, the book tackles such compelling questions as: • When and how self-revelation can enhance healing and change • What types of disclosure may be harmful • Why either party may fail to reveal important information • The impact on disclosure of race, gender, cultural, and sexual orientation • How to use disclosure to strengthen the therapeutic relationship • Special considerations involved in disclosing to children.

A separate chapter discusses supervision, covering how supervisors and supervisees decide what to share with each other, what kinds of disclosures each is likely to find helpful or unhelpful, and how this issue affects the quality of the alliance and the work that is accomplished.

Solution-Focused

CONFLICT MANAGEMENT

DIAGNOSIS MADE EASIER

by James Morrison, MD

Save \$12!

6 Contact Hours (316 p.) # 7331 NBCC NASW approved

\$67.95

This authoritative, user-friendly book is your primer to the art and science of mental health diagnosis. James Morrison, the author of the bestselling *DSM-IV Made Easy*, systematically takes the reader through every step of the process. He provides clear-cut principles and decision trees for evaluating information from a variety of sources and for constructing a valid working diagnosis that serves as a foundation for treatment. Special features include quick-reference tables, sidebars, explaining key concepts, and over 100 case examples that bring the approach to life.

COGNITIVE THERAPY FOR OBSESSIVE-COMPULSIVE DISORDER: A GUIDE FOR PROFESSIONALS

by Sabine Wilhelm, PhD; Gail S. Stekette, PhD.

Save \$16!

8 Contact Hours (242 p.) # 7345 NBCC approved

Reg. Price \$79.95
Now **\$63.95**

This manual presents for the first time a purely cognitive approach to treating obsessive-compulsive disorder (OCD). This approach avoids the highly distressing exposure component of exposure and response prevention therapy (ERP) that is commonly used to treat the symptoms of OCD. Not only does this cognitive therapy (CT) approach open up the option of psychotherapy to those OCD sufferers who resist exposure-based therapy, it also holds great promise for treating OCD sufferers with mental rituals as well as those who struggle concurrently with depression, anxiety, and other symptoms.

Course in Ethics!

CRITICAL INCIDENTS: ETHICAL ISSUES IN THE PREVENTION AND TREATMENT OF ADDICTION

CROSS-CULTURAL COUNSELING

by Clemmont E. Vontress, PhD **Save \$10!** Reg. Price \$79.95
6 Contact Hours (242 p.) # 7730 NBCC approved Now **\$69.95**

In this innovative text, case studies of clients representing many different cultural, racial, and ethnic backgrounds illustrate the subtle dimensions of counseling culturally different clients. Case topics discussed include sexual orientation issues, conflicts within cultures, abuse, violence, physical disability, grief, and more. In each case, the client's history is presented, followed by three analyses: The first analysis is from a conceptual perspective, the second is from an existential perspective; and the third is based on the DSM-IV diagnostic model.

ASSESSING AND TREATING CULTURALLY DIVERSE CLIENTS: A Practical Guide

• Minority, multicultural, race, and ethnicity concepts • Guidelines for the assessment and treatment of African American, Hispanic, Asian and American Indian clients • Using culturally biased instruments

BINGE-EATING DISORDER

by James E. Mitchell, MD, et al. **Save \$15!** Reg. Price \$79.95
6 Contact Hours (214 p.) # 7241 NBCC approved Now **\$64.95**

This innovative scientific reference and clinical tool is virtually two books in one. Part I thoroughly yet succinctly reviews the literature on binge-eating disorder, covering diagnosis and epidemiology, clinical features and course, links to obesity, medical risks, and current treatment data. Part II provides an evidence-based cognitive-behavioral treatment manual. Session-by-session guidelines address how to help individuals or groups change their eating behavior, cope with emotional triggers, restructure problematic thoughts, deal with body image concerns and associated problems, maintain improvement, and prevent relapse.
