Dear Approved CCAPP Provider,

Enclosed is your current provider certificate; please note that the last four digits of your approval number have changed to reflect the expiration month and the expiration year of your provider status, and the exact dates of approval are listed below in the "approval period" section on the certificate. All of our providers expire on the 30<sup>th</sup> day of the month except for February, in which a provider's expiration date will fall on the 28<sup>th</sup>. Please be sure to use this current number for all publications and certificates, as using an expired provider number may delay the certification renewal process for the counselors using your services.

If you have any questions, please do not hesitate to contact me at 916-338-9460 extension 112

Thank you for your support of CCAPP and its counselors!

Sincerely,

A handwritten signature in black ink that reads "K. Padilla". The signature is fluid and cursive.

Kristina Padilla  
CCAPP Director of Business Development & Education
